

Procedure of conduct

1 Topic selection

1. Ten problem statements will be provided for the Hackathon of which one is to be selected.
2. Teams can have up to five members.

2 Preparation and final presentation

1. Do not prepare already existing solutions. Inspiration can be drawn and devices used for other purposes can be incorporate but it should be a mostly original idea.
2. A presentation based on the solution is to be prepared following the guidelines which will be provided.
3. An interval of three days will be given to figure out the solution and prepare for the presentation.
4. If the solution is software based, then a basic framework of the software must be provided.
5. Presentation should be specific and technical as far as possible.
6. Judging will be based on feasibility of the idea, engineering focus, presentation skills and team work.
