

TECHSPARK IEEE SB MCE

IEEE SB MCE in association with ECE Department conducted a program called TECHSPARK on various days of January 2020 at different schools. This is basically a initiative to uplift the interest of students in the field of engineering and electronics. In this programme various student volunteers were trained to take classes to the students on different basic electronic circuits and all.

There were more than 10 volunteers who actively took up the challenge in teaching more than 50 students within the limited amount of time.

Various schools covered were:-

- 1.Jyoti nilayam higher secondary,Kazhakootam
- 2.Government Model Girls Higher Secondary School,Pattom
- 3.Government Model Boys Higher Secondary School ,Thycaud
- 4.St.Josephs Higher Secondary School

On 21st of January 2020 students of Marian Engineering College went to Jyoti Nilayam School kazhakootam. There were more than 50 students and the feedbacks from the students were outstanding.

The next destination was to Government Model Girls Higher Secondary, Pattom on 24th of January 2020. The results were tremendous and all the students greatly appreciated the programme.

The next school visited was Govt Model Boys Higher Secondary School ,Thycaud on 29th January 2020.The feedbacks from the students as well as the faculty was very good.

The last school visited for the month of January was St Josephs Higher Secondary School on 30th. More than 50 students actively involved in this programme and the final feedbacks received was very good.
