

WORKSHOP REPORT
IEEE SB MCE
AUGMENTED REALITY

On **24th February 2019 IEEE SB MCE** conducted a one day workshop on **Augmented Reality**. The workshop was organized by Anvira edustation in association with IIT Bombay.

DATE	24TH FEBRUARY
TIME	9:00AM – 4:30PM
VENUE	MARIAN ENGINEERING COLLEGE

The registration process commenced by 8:30am. Soon after registration, participants were taken to Bishop Benziger hall for the classes. A total of 104 students participated for the workshop.

The Session was conducted by Mr.Akshay Nadhagiri

The students were arranged inside the hall as a group of 5 members. The session began with the introduction of Augmented Reality.

Mr. Akshay started the program with the installation and familiarisation of AR software.

The participants were given a break at 11:00 am. The session continued at 11:15am by explaining the creation of three shapes and their colour combinations.

The session halts for lunch break at 12:30 pm.

After the break the session continued by showing the projection of animated characters on the screen.

Later on he projected virtual object in real life using laptop camera.

The session adjourned at 4:30pm with a tea break. A photo session was arranged thereafter.

Majority of the participants were from Marian engineering college and others include:

- * Rajadhani Institute of Engineering and Technology.
- * Valia Koonambaikulathamma College of Engineering and Technology.
