## **ABOUT THE EVENTS**

On the 1st of December 2022, Marian Engineering College inaugurated its Civil Association with great enthusiasm and excitement. The event was organized to celebrate the inauguration of the civil association, which is aimed at promoting and developing the skills and knowledge of students pursuing civil engineering at the college. The inauguration ceremony was held in the Bishop Benziger Hall at the admin block of MEC and was attended by students, faculty members, and distinguished guests from the civil engineering industry.

The event began with a prayer and a welcome address delivered by the Head of Civil Engineering Department, Dr. Narayanan S, followed by the lighting of the lamp by the chief guest, Mr. Ajith Kumar G S, Superintending Engineer, LID (EW). The ceremony proceeded with presidential address by the principal of our college, Dr. J David, who highlighted the importance of such associations in promoting innovation and creativity in students, and inaugural address by the chief guest, who shared his experiences and insights from his illustrious career in the industry, which was then followed by the felicitation delivered by Dean, Dr. A. Samson

The highlight of the event was the expert talk delivered by Mr. Ajith Kumar G S, on the subject of curing of concrete, which helped students in the better understanding on some of the constructional aspects in civil engineering. Thus, the first session of the event concluded with a vote of thanks by the Mentor of the Civil Association Mrs. Rani. V, who expressed her gratitude to the faculty members, students, and guests for their support and participation in the event.

The second session was on the topic of self-branding by Mr. Sreeraj Parackal, Inspirational specialist, St. Thomas College of Engineering, Chengannoor. The talk started by defining self-branding and highlighting its significance. He shared his personal anecdotes and examples of successful individuals who have leveraged their personal brand to achieve their goals. He gave emphasize on the need for authenticity in creating a personal brand. People need to identify their unique strengths, values, and passions and use them to build a brand that is true to their

identity and highlighted the importance of consistency in brand messaging and the need to maintain a positive online presence.

Overall, the inspirational talk on self-branding helped in empowering the individuals towards a future where they could take control of their personal and professional lives by creating a memorable and authentic personal brand and how self-branding is a crucial aspect of personal and professional growth.

In conclusion, the inauguration of the Civil Association in Marian Engineering College was a grand success, and a significant step towards promoting the development of civil engineering skills and knowledge among the students. It is hoped that the association will continue to flourish and provide a platform for innovation and creativity in the field of civil engineering.
