More about Dept:

## Testimonials

“With experienced faculty members and well-equipped machines labs and electronics fabrication-lab, I see the transferrable set of competencies that got built up over a period. It isn't easier for me to summarize my experience in few words.”

- **Jacob Thomas (2015-19 BATCH)**

“The faculties and the curriculum were favorable for creating interest and curiosity in the minds of students. A culture of academic rigor ensured that there is a delivery of conceptual clarity over rote learning..”

- **RGokul Ramanan (2013-17 BATCH)**

**MARIAN**  
ENGINEERING COLLEGE

## ELECTRICAL & ELECTRONICS DEPARTMENT

To mould Electrical Engineers with self-proficiency in Education, Research, Development and Dedication.

•To deliver the curriculum to the level of industry relevant learning and training through continuous evaluation and improvement.

•To enrich graduates with communication, design and soft skills with a culture of innovation and research for excellence in multidisciplinary technical areas.

•To facilitate quality engineers with professional ethics and to provide knowledge-based technology and service to meet the needs of the society globally

# About Department

The Department of Electrical and Electronics was established in the year 2013 with the primary objective of imparting quality education and training in the various areas of Electrical and Electronics, thereby moulding the students into competent professionals. The department stands 12th in Kerala, in the Overall Result of first batch of APJ Abdul Kalam Kerala Technological University. The department also got selected in the Publications and Project team of IEEE PES Young Professional Kerala Chapter . IEEE PES Student Branch Chapter of Marian Engineering College *has been ranked fourth in Region 10 and ranked globally in 11th position in the 2020 IEEE PES HPSBCP.*

## Constantly Top in Results

Mohammed Akshay & Mohammed Habeeb, our rising stars, secured 10.00 GPA in two consecutive semesters S1 and S2.

## OUR RECRUITERS

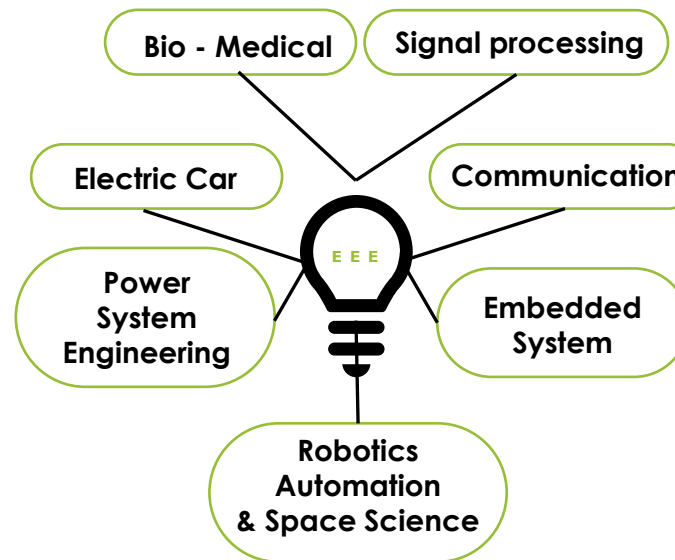

## ASSOCIATION & IEEE PES SBC ACTIVITIES

**Activities:** Quiz Competitions, Go Green Campaign, Technical Exhibitions, KSEB Power Quiz, Various online events like D Relay, Debogage and Techizard .....

## WHY STUDY EEE?

A EEE student can enter the job market of Computer engineering, Electronics & communication engineering, Instrumentation engineering, control engineering, robotics, mechanical engineering, VHDL, VLSI. But any branch of other engineering student can not enter the Electrical Engineering job market.

## EEE Labs & Workshops

## Students Outreach Program

## Technical Exhibition
